SUMMARY

Frontend Developer with 4+ years of experience designing and building accessible, responsive web applications. Skilled in writing documented, maintainable front-end code, integrating RESTful APIs, and collaborating across design, backend, and stakeholder teams. Experienced with Git/GitHub version control, Docker-based development workflows, and delivering ADA/WCAG-compliant user experiences from Figma designs.

TECHNICAL SKILLS

Front-End: HTML5, SCSS/CSS, Tailwind, JavaScript, PHP, Twig, Responsive & Accessible (ADA/WCAG) Web Design

Tools & Practices: Git, GitHub, Docker, REST APIs, Figma, Advanced Custom Fields (ACF), Code Documentation

Platforms & CMS: Drupal, WordPress, Firebase, Progressive Web Apps (PWA)

Also Familiar With: Python, MySQL, Django, React, Typescript

PROFESSIONAL EXPERIENCE

Frontend Developer, Savas Labs

Feb 2022 – Feb 2026

- Developed responsive, accessible interfaces for web applications using Drupal and WordPress, integrating REST APIs, dynamic content models, and reusable frontend components with an emphasis on clean, sustainable, and well-documented code.
- Themed WordPress and Drupal sites using PHP, Twig, SCSS, and JavaScript, using Git/GitHub for version control and Docker-based environments to support consistent development and deployment across projects.
- Collaborated daily with designers, backend developers, and non-technical stakeholders to translate requirements into accessible, maintainable web experiences, managing multiple concurrent projects and deadlines.
- Performed peer code reviews on pull requests, evaluating code quality, maintainability, and adherence to best practices to support consistent standards across the team.

SELECTED PROJECTS

HIV Prevention Trials Network (HPTN) Website Redesign

Nov 2024 – Feb 2025

- Led frontend development for a Drupal redesign, partnering with a backend developer to architect 12 content types and 17 reusable components into a scalable, extensible content system.
- Built semantic, accessibility-compliant Twig templates, SCSS, and JavaScript components, and produced documentation and CMS training materials to translate technical decisions for non-technical stakeholders.

North Carolina Healthcare Association (NCHA) Website Redesign

Dec 2023 – Feb 2024

- Built a responsive, ADA-compliant WordPress theme from Figma designs using PHP, SCSS, and JavaScript, applying accessibility design standards throughout.
- Customized Gutenberg blocks with Advanced Custom Fields (ACF) into a flexible, reusable design system, improving editor workflows and enabling faster, more consistent page creation.

Disability Rights Education & Defense Fund (DREDF) Website Redesign

Jun 2023 – Sep 2023

- Built reusable WordPress components and custom post types to support flexible, extensible page creation and streamlined content management.
- Developed responsive, cross-browser, accessibility-focused UI using semantic HTML, SCSS, JavaScript, and ACF.

Screenless Supper

Feb 2025 – Mar 2025

- Built a Progressive Web App game independently using JavaScript and Firebase, implementing real-time group synchronization, shared game state, and persistent data storage for multiplayer gameplay.
- Designed and optimized end-to-end user flows, assessing end-user needs to deliver an intuitive experience from setup through gameplay and results.

EDUCATION

Bachelor of Computer Science, City College of New York (CUNY)

Aug 2017 – Dec 2021
