EDUCATION

Bachelor of Computer Science | City College of New York | Aug 2017 - Dec 2021

SKILLS & TECHNOLOGIES

HTML5, SCSS/CSS, JavaScript, Twig, PWA, PHP, Drupal, WordPress, Firebase, Figma, Git, Docker

EXPERIENCE

Frontend Developer | [Savas Labs](#) | Feb 2022 - Jun 2025

- Developed responsive interfaces for web apps using CMS frameworks, enhancing user engagement.
- Translated design comps into HTML/CSS/JavaScript, ensuring cross-platform consistency and performance.
- Themed WordPress and Drupal sites, collaborating with teams to meet design and functional needs.
- Fostered effective communication between design and development teams, streamlining project workflows and ensuring timely delivery of high-quality products.

PROJECTS

[Screenless Supper](#) | Feb 2025 - Mar 2025

- Built a Progressive Web App game using HTML, SCSS, JavaScript, and Firebase to enable users to create/join groups, track game state, and synchronize user actions in real-time.
- Collaborated closely with designers to optimize user flows and journeys, delivering an intuitive experience from group setup to gameplay, countdown, and results display.
- Implemented core features including group leader controls to start the game, real-time countdown prompting users to lock phones, and a dynamic leaderboard displaying lock durations using Firebase for data storage and synchronization.

[HIV Prevention Trials Network \(HPTN\) Website Redesign](#) | Nov 2024 – Feb 2025

- Led frontend development for a Drupal-based website redesign, ensuring alignment with design specifications and stakeholder goals through continuous collaboration, and facilitated demo days to present progress and provide client training on content management best practices.
- Partnered with a backend developer to define and configure 12 content types and 17 components, creating a scalable and reusable content architecture within Drupal.
- Translated Figma designs into semantic Twig templates, SCSS, and JavaScript for 12 content types and 17 paragraphs, ensuring pixel-perfect implementation and adherence to accessibility best practices.

[North Carolina Healthcare Association \(NCHA\) Website Redesign](#) | Dec 2023 – Feb 2024

- Spearheaded frontend development of a responsive, ADA-compliant WordPress theme by translating detailed Figma designs into optimized PHP templates, SCSS, and JavaScript, delivering a seamless mobile-friendly user experience aligned with accessibility standards.
- Customized and styled Gutenberg blocks using Advanced Custom Fields (ACF), crafting an intuitive editor interface that mirrored frontend designs and streamlined content management for users.
- Implemented a flexible design system of interchangeable components with multiple variations, enabling content editors to quickly create dynamic, tailored pages.

[Disability Rights Education & Defense Fund \(DREDF\) Website Redesign](#) | Jun 2023 – Sep 2023

- Served as a frontend developer to implement 10 responsive, reusable WordPress components and 7 custom post types from Figma designs using semantic HTML, SCSS, and JavaScript.
- Delivered consistent UI across browsers and devices, and enhanced content flexibility with Advanced Custom Fields (ACF).
